PROFESSIONAL EXPERIENCE

Fullstack Web Developer (NEXT.js)

VisCorner, Lagos, NG   (April 2025 – present)

- Playing a key role in migrating VisCorner from WordPress to Next.js, working on new features while maintaining the current platform.
- Build and maintain Next.js applications, using best practices for performance, scalability, and accessibility.
- Contribute to planning and architecting the long-term technical roadmap of the VisCorner platform.

Frontend Web Developer

DITCOSOFT TECHNOLOGIES, Lagos, NG   (May 2024 – April 2025)

- Designed and developed a multi-tenant portal for managing user accounts, printing recharge card pins, and flushing pins.
- Designed and built AirtimePlus-Beta from scratch (beta.airtimeplus.ng)
- Enabled seamless domain-based tenant access using scalable architecture with role-based authentication.
- Enhanced backend connectivity and ensured smooth front-to-backend integration.
- Built Company Cooperative website.

Freelance Web Developer

Various Clients   (2022 – Present)

- Amour Artelia: Built and deployed a modern company site powered by Nextjs and Sanity CMS, playing a key role in branding and SEO (amourartelia.com).
- One Divine Singularity: Developed blog + secure admin portal with performance optimisation (onedivinesingularity.com)
- Greencal Foundation: Designed and delivered a responsive, impact-driven donation platform for Greencal Foundation (greencalfoundation.com), a non-profit based in Abakaliki, Ebonyi State—contributing to a successful fundraising campaign that generated over ₦2M.
- PEPNOPS INC: Built and deployed a modern company site (pepnops.com).
- Zstinger: Developed an authenticated investor portal for a drone tech firm (zstinger.com).
- **Achieved 100/100 Lighthouse scores** (Performance, SEO, Best Practices) for production-grade websites through rigorous optimization and semantic development practices. (mosesnwigberi.com)
